Attorney's Docket No.: 07844-357001 / P333

Amendments to the Specification:

Please amend the paragraph beginning on line 18 of page 16 of the specification as follows:

As described above, the user has selected profiles for a proofing printer (step 502) and a printing press to be emulated (step 504). The process employs the printing press profile to determine the minimum luminance that the printing press can produce ( $L^*E$ ) (step 506) according to the method described above. The process employs the proofing printer profile to determine the minimum luminance that the ~~printing press~~ proofing printer can produce ( $L^*O$ ) (step 508) according to the same method.
